

# **MANAGEMENT POLICY**

## **26th Edition**

The company Amtrol-Alfa designated to Conception, development, manufacturing and requalification of welded and composite cylinders for gases; manufacturing, filling and commercialization of disposable cylinders for helium, commits itself with creation of permanent value to all the interested parts, exceeding all customers' expectations through:

- Environment
- Differentiation
- Innovation
- Global leadership
- Quality on solutions
- Safety

These premises are achieved through:

- Comply with legal, regulation and regulatory requirements
- Comply the technical specifications and other requirements defined in products project
- Promote communication between all stakeholders through all possible channels
- Continuously improve our environmental performance by preventing pollution and encouraging the conservation of natural resources
- Promote satisfaction, continuous motivation, safety and well-being of employees
- Protect the environment through sustained development in the continuous improvement of products, processes and procedures
- Promote the effectiveness and continuous improvement of the management system
- Recognize the people who work with us and their commitment to the organization
- Treat all stakeholders the way we like to be treated

Amtrol-Alfa communicates the management policy to employees, contributing to correct Quality, Environmental and Safety behaviors. The communication is carried out through information in the billboards, actions of sensitization, site, among others.

Approved by our General Manager,

Tiago Oliveira
